Minister of Highways Asks:

WHY WON'T THE SUN SHINE SO WE CAN GET ON WITH THE JOB?

By T. W. PUE

EDMONTON — Last week Hon. Gordon E. Taylor, Alberta's Minister of Highways, let out an exhausted sigh and asked—in a letter accompanying the weekly report of highway construction—"Why won't the Sun Shine?"

"If 'Calais' was written on the heart of Mary, Queen of Scots, it is quite possible that 'Rain' may be written on mine!" Mr. Taylor stated. The 1954 summer season, following three successive wet summers, seemed at first to have a good chance of being drier, and the Department of Highways had been endowed with more money than ever before to spend on the mammoth road construction program. But the bright prospects were changed to gloom when rain kept the thousands of construction workers and scores of contractors from going on with the job. Up until August 20, two-thirds of the normal road building season had gone and only one-third of the work had been done. But, maybe there has been a change. The day Mr. Taylor's report arrived in the hands of editors throughout the province—Friday of last week—the rain stopped and the sun came out. The sun shone all day Saturday and Sunday too. Forecast is for continued sunny weather.

"Why won't the sun shine?" well, maybe it will from now on! At least until freeze-up, and give Mr. Taylor and his department a belated chance to finish their 1954 road construction program.

EARLY FROST DAMAGE MOST SERIOUS THREAT TO ALBERTA CROPS

EDMONTON (BUP)—A statistical summary issued by the Alberta government warns that the danger of frost damage to crops continues in most areas of the province.

The report says warm, dry weather has helped crop advancement in the south and some east-central regions. But it says that at the same time, moistures reserves have been seriously depleted and crop deterioration has taken place on dry land.

According to the review of the agricultural situation, moisture conditions are still good to excessive in most central and northern districts. And recent rains in the Peace River district saved crops there from serious drought damage.

The report says the marketing

of cattle and calves in the province in the first seven months of the year continued at a high level compared to 1953 marketings. But says sheep and lamb sales for June showed a decrease from the same month last year.

The number of hogs slaughtered was above May and June figures for 1953.

Creamery butter production in June was seven per cent lower than in June, 1953. But total production for the period is about the same.

The number of eggs graded in Alberta in June was 14 per cent greater than the number graded in the same month a year ago.

However, gradings in the first six months of the year were only 1.6 per cent greater than in the corresponding period of 1953.

IMPASSABLE ROADS RESULT IN DELAYED SCHOOL OPENING

To phrase a time-worn expression, it's an "ill wind that blows nobody good." While farmers oil men and road builders have reason to regret the weather conditions of late, school children in a dozen districts benefit by nearly an extra week of summer holidays.

Schools won't open this week in Lac la Biche, Hughenden, Colinton, Boyle, Stony Plain, Thorhild, Clover Bar, Edson or Redwater,

to name a few towns and School Districts affected. They are now scheduled to reopen on Tuesday, Sept. 7. Children affected will thus have an extra four days of school holidays.

However, if continued wet weather is the order of the day until next Tuesday it isn't likely to further delay school opening for these lucky kids. In other districts, and the city of Edmonton, schools opened this week on Sept. 1.

PLAMONDON DISTRICT RESIDENTS DISCUSS GETTING CALGARY POWER

By MRS. J. E. COTE

Phyllis who spent the summer months there, returned with them. Phyllis will attend school in Grassland this term.

Mrs. Vincent Sr. spent a few days in Lac la Biche, visiting at the home of her son Lionel Vincent.

The abundance of rain these past weeks have restored the "horse and buggy days." There have been numerous horse-drawn vehicles in town.

A meeting was held August 24 to acquaint farmers and town residents with particulars concerning Calgary Power. The meeting was fairly well attended, but more support is needed, if the aim is cheaper electricity.

This town has been fortunate in having good power supplied by Elmer Plamondon, but it is impossible for a private plant to compare with such a company as Calgary Power.

New Family Not Pleased With Alberta Rains

ROCHESTER—The J. Le Grand family, previously of Paradise Hill, Sask., are not too pleased with the continuous rains of Alberta in the past few weeks. During Mr. Le Grand's 15 years as a merchant in the farm equipment, hardware and oil business in Saskatchewan all rains were very welcome. During that time the major problem was lack of moisture so Mr. Le Grand decided to move to Alberta to locate in a good grain growing area. He chose Rochester and is pleased with the move but is beginning to wonder when the moisture problem is going to be remedied.

The children in the family, Carol 12, Dennis 11, and Gregory 7, are anxious to start school to see if Alberta classes differ much from those in Saskatchewan.

During his 15 years in Paradise Hill Mr. Le Grand was active in community affairs, having served on the council for 5 years, on the hospital board for 6 and was the chairman of the Board of Trade for 3 terms. In sporting circles Mr. Le Grand is very interested in curling; in Paradise Hill he was active in the curling organization that recently constructed a new 2-sheet rink; 31 rinks participated in bonspiels last year.

The Le Grand's have recently taken over the Skrypnuk store and plan to serve the town of Rochester and district in business and in community affairs.

THE KING EDWARD PARK SCHOOL is one of many that will open on Sept. 1. Recently a 10-room addition has been completed on the school grounds located at 7803 - 87 Street.

SCHOOL ENROLLMENT UP 2,800; ACCOMMODATION STILL JAMMED

Enrolment in Edmonton public schools is expected to be about 28,300 during 1954-55, R. S. Sheppard, superintendent, announced. The total is an increase of about 2,800 over registration in September, 1953.

About 18,500 pupils are expected to enroll in elementary schools, about 6,200 in junior high schools, and about 3,600 in high schools.

This year about 3,800 pupils will commence grade 1 in September.

About 240 teachers will join the staff boosting the total number of staff members to about 940.

SIX NEW SCHOOLS

Six new schools will be operated by the public school board this year. New schools, with locations in brackets, are: Crestwood (97 Ave. and 144 St.); Eastglen (115 Ave. and 69 St.); Lauderdale (129 Ave. and 107 St.); Mount Pleasant (60 Ave. and 106 St.); Sherbrooke (122 Ave. and 131 St.); and Braemar (south of Highway 16 east of the city limits).

The Braemar school is being operated by the city school board under an agreement with the Clover Bar school district.

The Eastglen Composite High School, partially occupied last spring, has been completed and will be occupied by senior and elementary pupils. Although over 400 high school students were transferred from the Eastwood School to the Eastglen Composite High School, the Eastwood School is still filled to capacity, Mr. Sheppard said, and it is necessary to use one portable classroom.

A gymnasium, home economics facilities and industrial arts shops have been added to the Spruce Avenue School.

Shortage of accommodation on the south side has forced the school board to reopen a building on 84 Ave. east of 112 St. and immediately east of Garneau United Church. The frame building was at one time used for the commercial division of the old Strathcona Composite High School and later was used by mathematic classes of the University of Alberta. It will contain five elementary class rooms and will be attached to Garneau Elementary School.

STILL BUILDING

An extensive construction program is now underway to provide further accommodation as new districts open up throughout the city. School buildings under construction or to be started in 1954, with improvements given in brackets, are: Belgravia (six rooms); Forest Heights (four room addition); Hazledean (10 room addition); Highlands (six room addition and gymnasium); Holyrood (12 rooms); North Edmonton (eight room addition and gymnasium).

Prince Rupert (six rooms); Ritchie (six room addition); Sherbrooke (six room addition, gymnasium, shop and home economics accommodation); Westminster

(six room addition); and Woodcroft (12 rooms).

The Strathcona Composite High School, which will supply 32 rooms, shops, and a gymnasium, is expected to be completed by September, 1955.

In addition, 19 portable classrooms will be used throughout the city.

School officials will recommend to the school board, Mr. Sheppard

said, that two new high schools, similar to the Eastglen Composite High School, be considered for construction in the near future. The two schools would be located in the extreme west end of the north side and in the extreme east end of the south side.

Flood Danger At Baptist Lake

BAPTISTE LAKE—A detour on number 2 highway has resulted in unusually heavy traffic around the lake for the past two or three days. The detour has been made necessary by work on the bridge near W. Fotty's farm.

The bridge has been removed, and the government is installing a single culvert, which it hopes will carry the waters of Baptiste Creek, through which the lake drains into the Athabasca River. Residents of the district are watching the operation with a great deal of interest, and some anxiety, as Baptiste Lake is already at the highest level it has reached for many years, and even a small increase might result in flooding of low lying parts of the shore line.

the United Church and Ladies' Aid was held Friday, August 20.

Saving money . . . and writing cheques

A bank offers you two types of deposit account, Savings and Current.

If your main purpose is to save, to accumulate funds, it's good to have a Savings account.

If you write cheques frequently, you will like the many advantages of a Current account.

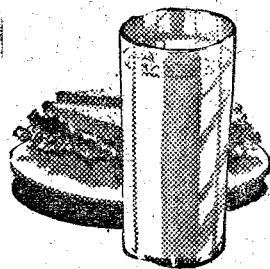

The money you leave in a Savings account earns interest, and your bank book gives you an up-to-date, continuing record of your financial progress. If your funds are active, with frequent deposits and withdrawals, a Current account provides a special service; a monthly statement, together with your cancelled cheques—useful as receipts and a ready reference for budgeting, bookkeeping and other purposes.

Clubroom Of Delia 4-H Beef Club Officially Opened By S. W. Pettem

By G. W. ROBERTSON, Field Supervisor

"I now declare this clubroom officially open," said S. W. Pettem, the district agriculturist from Drumheller, at an informal meeting of the Delia 4-H Grain Club, on the afternoon of Thursday, August 19. The members of the 4-H Club have built a clubroom above the North Side Garage, by kind permission of Kasper Kempf. Mr. Pettem praised the boys for their effort and pointed out that this meeting place, where the boys can come and go as they please, should make possible a better club spirit and provide a better basis for such club projects as thematic displays.

The reason for Thursday's meeting was the annual plot tour of the Delia Club and the meeting in the clubroom was held at the conclusion of the tour. A number of parents were present at the meeting.

DISTRICT FUA GROUPS TO TAKE PART IN ONE-DAY DRIVE

Local officers of the Farmers' union of Alberta are being asked to participate in an unique program to increase membership. The Farmers' Union of Alberta will try in a one-day membership drive to bring its membership to 51 per cent of the farmers in the province.

If the drive succeeds, the 26,000

member organization will be the first in Canada to achieve the goal.

The date for the drive is being kept secret by the FUA. Campaign Director Waldo D. Summers says it is hoped this move will lend color and interest.

The organization says the date will be announced later in the year by President Henry Young.
